## The Malvern Collection...

Making the most of the space in your garden

## Welcome to The Malvern Collection Award winning handmade quality garden buildings for over 45 years

In the early 1970s, we started to design and produce garden buildings at our factory in Worcestershire. All of our buildings are made to order and handcrafted using traditional carpentry techniques by skilled craftsmen, which are then delivered and installed by our own teams of experienced fitters across the country.

The Malvern Collection design and make a wide collection of buildings, from the humble shed right through to fully lined, insulated and double glazed garden rooms and offices designed for all year round use.

We offer a wide selection of optional extras which enable you to create your ideal garden room to meet not only your practical needs but also your own personal taste.

Our paint spraying shop is one of the most advanced spraying and drying facilities in the garden building industry, where buildings can be coated with a highly durable and weather resistant, low maintenance paint and primer system, which will protect and enhance your building.

At Malvern, we use only the highest quality materials from sustainable sources. Our redwood buildings are constructed using kiln dried slow grown pine from Sweden's Northern sawmills and our cedar buildings are constructed using Canadian Western Red kiln dried cedar.

We strongly recommend that you visit one of our display sites where you can examine for yourself the quality, design and materials used in the manufacture of our buildings. Experienced staff will be on hand to discuss your individual requirements.

Thank you for taking the time to look through our brochure.

8' 5" x 6' Gazebo

## Standard Features

- Fixed windows either side of doors, with further fixed and opening windows in each side (number depends on size of building)
- Lockable double door, excluding the 6' x 6' model which has a single door
- Plain glazing
- Toughened glass
- Green polyester mineral felt
- Tongue & groove timber roof and floor
- High quality timber treatment applied throughout prior to delivery (excluding pressure treated)
- A wide range of sizes to choose from

## Options

- A choice of three tongue & groove timbers
- Coloured painted finish - wide selection of colours
- Georgian style windows and doors
- Square or diamond leaded glazing
- Glass to ground windows and doors
- Tinted glass (plain or glass to ground only)
- Black or red polyester mineral felt
- Brass or chrome style ironmongery
- Pressure treated slatted roof
- Cedar slatted roof
- Cedar shingle roof
- Slate effect tiled roof
- Heavy duty floor
- A set of pressure treated floor bearers

## Standard Features

- One opening window in each side. Pent model has two fixed window on front, one either side of the doors
- Front roof overhang
- Lockable double doors
- Plain glazing
- Toughened glass
- Tongue & groove timber roof and floor
- Green polyester mineral felt
- High quality timber treatment applied throughout prior to delivery (excluding pressure treated)
- A wide range of sizes to choose from

## Options

- A choice of five tongue & groove cladding types
- Georgian style windows and doors
- Square or diamond leaded glazing
- Glass to ground windows and doors
- Tinted glass (plain or glass to ground only)
- Additional windows
- Integral open area
- Privacy style windows
- Brass or chrome style ironmongery
- Black or red polyester mineral felt
- EPDM rubber roof
- Internal partition walls can be added to create an additional room which can be accessed via external shed style doors and/or internal doors
- Additional shed style doors and windows
- Heavy duty floor
- A set of pressure treated floor bearers

## Options available

### Coloured Painted Finish (Gazebo and Hanbury only)

A comprehensive paint system is applied prior to the building leaving the factory. The paint system comprises of an initial undercoat and a further top coat of your chosen colour.

### Higher Pitched Roof

For those that require extra internal height.

### Tinted Glass

All glazing has one side with an anti-sun tint applied to the unit.

### Bitumen Felt Tiles

Roof is covered with tile effect heavy duty felt tiles.

### Slatted Roof

An aesthetic roof made with featheredged pressure treated redwood or Western Red cedar boards to enhance the appearance of your building and provide added protection to the roofing felt beneath.

### Shingle Roof

Western Red cedar shingles fixed to pressure treated joists to enhance the appearance of your building and provide added protection to the roofing felt beneath.

### Slate Effect Roof Tile

Slate effect roof tile is a synthetic roof tile which emulates the appearance of natural slates and has a long life span with no maintenance.

### EPDM Rubber Roof

A maintenance free synthetic rubber membrane covering the roof as an alternative to roofing felt.

### Integral Open Sided Area

Please note when working out the price for this option, use the overall building size including the open area. However, where an open sided area upgrade is applied, the heavy duty floor cost must be included to the internal area, the decking in the open sided area is heavy duty and therefore the other sections of the building need to match thickness.

Newland Pavilion heights	Depth	External		Eaves	Internal (unlined)		
		Ridge			Ridge		Eaves
		Low	High		Low	High	
6' (1.83m)	2.33m	2.51m	2.04m	2.20m	2.37m	2.02m	
8' (2.44m)	2.41m	2.65m		2.29m	2.51m		
10' (3.05m)	2.40m	2.79m		2.29m	2.65m		
12' (3.66m)	2.47m	2.93m		2.35m	2.80m		

Pent heights	Depth	External		Internal (unlined)	
		Front	Rear	Front	Rear
6' (1.83m)		2.26m	2.06m	2.06m	1.91m
8' (2.44m)		2.26m	2.06m		
10' (3.05m)		2.28m	2.09m		

Apex heights	Depth	External		Eaves	Internal (unlined)		
		Ridge			Ridge		Eaves
		Low	High		Low	High	
8' (2.44m)	2.41m	2.65m	2.04m	2.29m	2.51m	2.02m	
10' (3.05m)	2.40m	2.79m		2.29m	2.65m		
12' (3.66m)	2.47m	2.93m		2.35m	2.80m		

Corner heights	Depth	External		Internal (unlined)	
		Front	Rear	Front	Rear
7' (2.13m)		2.22m	2.06m	2.06m	1.91m
8' (2.44m)		2.22m	2.06m		
9' (2.74m)		2.24m	2.09m		
10' (3.05m)		2.24m	2.09m		

Door Openings (w x h)	Metric (m)
Single Standard Door	0.76 x 1.83
Single Georgian Door	0.70 x 1.83
Double Standard Doors	1.22 x 1.83
Double Georgian Doors	1.40 x 1.83
Standard Shed Door	0.89 x 1.77
Narrow Shed Door	0.68 x 1.77

Wall Thickness	Metric (mm)
Redwood & Pressure Treated Standard Cladding	13
Cedar Cladding	12
Redwood & Pressure Treated Heavy Duty Cladding	19
Framing	57
Matchboard	12
MDF	9
Skirting	12

Floor Thickness	Metric (mm)
Standard Floor	13
Heavy Duty Floor	19
Pressure Treated Joists	45

All prices are in (£) Pound Sterling

## Important Points to note:

All of our Garden Rooms come with a guarantee against rot and decay. Ten years for cedar, three years for pressure treated redwood and two years for redwood. All other workmanship and materials are guaranteed to be free from defects and faulty installation for a period of 12 months. All of our guarantees are subject to the buildings being maintained in line with our recommendations.

We would like to remind customers that timber is an organic product, subject to naturally occurring changes that result from different environmental conditions i.e. changes in colour, surface splits and shrinkage. We cannot accept responsibility for these natural changes.

All base work is the responsibility of the customer, as is the safe securing of the building once installed. We require a level solid base, either paving slabs, decking or concrete upon which to install your building. In the event of a base failure, it is the customers responsibility to accept delivery of the building and store appropriately.

Please allow as much room as possible around the building for our fitters to work during installation, a minimum of 18". If this is not possible please contact the office to discuss.

Our installers will need clear access to carry building sections from the vehicle to your prepared base, with no height restrictions or tight, sharp corners to negotiate.

Our installers cannot lift sections over 4' in height or over buildings such as garages. If the only access is through the house, a straight run is required and many sections will not pass through doorways. Please advise us in advance if there are any difficulties regarding access.

Always make allowance for any roof overhang when buildings have to go into confined spaces.

All of our non-painted redwood and cedar buildings are treated with a good quality preservative on the inside, as well as the outside, prior to leaving the factory. We recommend that you preserve your building on an annual basis to maintain the appearance and lifespan of your building.

All redwood and cedar buildings have redwood roofs and floors. Cedar buildings have cedar windows, doors and external cladding only i.e. they have redwood framing, floors, roofs and verandahs.

Ironmongery is black as standard unless otherwise stated.

All roofs are protected with a layer of heavy duty polyester mineral felt unless otherwise stated, available in a choice of three colours.

All building dimensions shown in this brochure are approximate, based on floor sizes.

All timber used in the construction of our buildings originates from sustainable forests.

As it is our policy to continually improve products, methods and materials, we reserve the right to change specifications from time to time, we will not make any significant variations without your agreement.

## Colours available:

The swatches above are for illustration purposes only as the printing process may not allow an accurate colour representation of paint or stain based finishes. We advise when selecting a final colour choice to request a painted timber sample prior to doing so.

## QUALITY GARDEN BUILDINGS

Manufactured and installed by The Malvern Collection Limited. All prices include delivery (mainland England & Wales) and VAT.

As it is our policy to continually improve products, methods and materials, we reserve the right to change specifications from time to time. We will not make any significant variations without your agreement. Please note photos are for illustration purposes only and are not always standard specification. All building sizes are approximate and for guidelines only. All timber measurements, if stated, are finished sizes only i.e. after machining. Please note that finished sizes can vary by plus or minus 1mm.
