The Malvern Collection...

Making the most of the space in your garden

Welcome to The Malvern Collection

Award winning handmade quality garden buildings for over 45 years

In the early 1970s, we started to design and produce garden buildings at our factory in Worcestershire. All of our buildings are made to order and handcrafted using traditional carpentry techniques by skilled craftsmen, which are then delivered and installed by our own teams of experienced fitters across the country.

The Malvern Collection design and make a wide collection of buildings, from the humble shed right through to fully lined, insulated and double glazed garden rooms and offices designed for all year round use.

We offer a wide selection of optional extras which enable you to create your ideal garden room to meet not only your practical needs but also your own personal taste.

Our paint spraying shop is one of the most advanced spraying and drying facilities in the garden building industry, where buildings can be coated with a highly durable and weather resistant, low maintenance paint and primer system, which will protect and enhance your building.

At Malvern, we use only the highest quality materials from sustainable sources. Our redwood buildings are constructed using kiln dried slow grown pine from Sweden's Northern sawmills and our cedar buildings are constructed using Canadian Western Red kiln dried cedar.

We strongly recommend that you visit one of our display sites, where you can examine for yourself the quality, design and materials used in the manufacture of our buildings. Experienced staff will be on hand to discuss your individual requirements.

Thank you for taking the time to look through our brochure.

8' x 8' Bewdley Apex

7' x 7' Bewdley Corner

8' x 6' Bewdley Pent

Standard Features

- 13mm redwood cladding
- All ridge heights under 2.5m
- Single door
- Fixed windows (quantity dependant on size and model)
- Lockable rimlock and handle door catch
- 3 door hinges per door for extra strength
- Turn button top and bottom of door
- Tongue and groove timber roof and floor
- Green polyester mineral felt
- High quality timber treatment applied throughout prior to delivery (redwood models only)
- A wide range of sizes to choose from

Options

- 13mm pressure treated redwood cladding
- Toughened glass
- Black or red polyester mineral felt
- Double doors on 8' wide models and above (excluding corner shed)
- Opening windows in lieu of fixed
- Mezzanine Level 2'6" (0.76m) deep for high level storage (Apex only)
- Pent sheds have four possible door positions: Left of front, right of front, left hand end and right hand end
- Workbenches and shelves
- A set of pressure treated floor bearers

Tidystore, Logstore and Log Tidystore Features

- 13mm pressure treated redwood cladding (Tidystore is also available in Redwood)
- Tongue & groove timber roof and floor
- Green polyester mineral felt
- Double doors on the 6' wide Tidystore and single door on the two other Tidystores
- Padbolt door catch on the Tidystore
- Slatted floor and sides on the Logstore to aid ventilation
- Combination of the Logstore and the Tidystore to create the Log Tidystore

Options

- Pressure treated slatted roof
- Black or red polyester mineral felt
- Pressure treated floor bearers

Solar Features

- Heavy duty framework throughout
- Heavy duty floor
- Tongue and groove timber roof and floor
- Green polyester mineral felt
- Fully framed, ledged and braced door
- 3 heavy duty hinges per door
- Heavy duty staging under windows
- One opening vent window to the front
- Side windows
- 4mm toughened glass
- Black ironmongery
- Front roof overhang
- High quality timber treatment applied throughout prior to delivery (excluding pressure treated)
- Six sizes to choose from

Options

- A choice of heavy duty redwood, heavy duty pressure treated or 12mm cedar
- Black or red polyester mineral felt
- Chrome style ironmongery
- Stable door
- A set of pressure treated floor bearers

12' x 8' Malvern Heavy Duty Pent

10' x 6' Malvern Heavy Duty Pent

10' x 6' Malvern Heavy Duty Pent

Standard Features

- Front height under 2.5m
- Heavy duty framework throughout
- Additional diagonal framework for extra rigidity and strength
- Heavy duty floor
- Pressure treated floor joists
- Tongue & groove timber roof and floor
- Green polyester mineral felt
- Fully framed, ledged and braced single door
- 3 lever mortice lock
- 3 heavy duty hinges per door
- Security screws fitted to hinges
- Single glazed 4mm toughened glass
- Black ironmongery
- Joinery made fixed and lockable opening windows
- High quality timber treatment applied throughout prior to delivery (excluding pressure treated)
- A wide range of sizes to choose from

Options

- A choice of heavy duty redwood, heavy duty pressure treated or 12mm cedar
- Coloured painted finish – wide selection of colours
- Heavy duty black or red polyester mineral felt
- EPDM rubber roof
- Tongue and groove lining plus insulation
- Georgian style windows
- Double glazing
- Chrome style ironmongery
- Integral Tidystore conversion
- Hook and band hinges
- Security pack including 6 pin lock and security screws
- Guttering and downpipe in a choice of three colours
- Heavy duty workbenches and shelves
- Double door upgrade

Options available

Coloured Painted Finish (Stanford & Holt only)

A comprehensive paint system is applied prior to the building leaving the factory. The paint system comprises of an initial undercoat and a further top coat of your chosen colour.

Higher Pitch Roof

For those that require extra internal height.

Tongue & Groove lining and insulation

Building is internally lined with foil back bubble insulation and covered with redwood tongue and groove matchboard.

Bitumen Felt Tiles

Roof is covered with tile effect heavy duty felt tiles.

Onduline Roof

Roof is covered with onduline corrugated sheets with roofing felt underneath.

EPDM Rubber Roof

A maintenance free synthetic rubber membrane covering the roof as an alternative to roofing felt.

Slatted Roof

An aesthetic roof made with featheredged pressure treated redwood or Western Red cedar boards to enhance the appearance of your building and provide added protection to the roofing felt beneath.

Shingle Roof

Western Red cedar shingles fixed to pressure treated joists to enhance the appearance of your building and provide added protection to the roofing felt beneath.

Slate Effect Roof Tile

Slate effect is a synthetic roof tile which emulates the appearance of natural slates and has a long life span with no maintenance required.

Mezzanine

The optional upgrade of the Mezzanine Level, is a high level storage area of 2'6" (0.76m) deep, width dependant on size of shed. It can be used for storage or other purposes, easily accessible and is an area in the roof which is usually not utilised, making the most of the space.

Guttering

Guttering is available in a choice of three colours.

Integral Open Sided Area (Stanford & Holt only)

Please note when working out the price for this option, use the overall building size including the open area.

Solar	Metric (m)

Cedar Cladding	12
Framing	44
Matchboard Lining	12

Important Points to note:

All of our Garden Rooms come with a guarantee against rot and decay. Ten years for cedar, three years for pressure treated redwood and two years for redwood. All other workmanship and materials are guaranteed to be free from defects and faulty installation for a period of 12 months. All of our guarantees are subject to the buildings being maintained in line with our recommendations.

We would like to remind customers that timber is an organic product, subject to naturally occurring changes that result from different environmental conditions i.e. changes in colour, surface splits and shrinkage. We cannot accept responsibility for these natural changes.

All base work is the responsibility of the customer, as is the safe securing of the building once installed. We require a level solid base, either paving slabs, decking or concrete upon which to install your building. In the event of a base failure, it is the customers responsibility to accept delivery of the building and store appropriately.

Please allow as much room as possible around the building for our fitters to work during installation, a minimum of 18". If this is not possible please contact the office to discuss.

Our installers will need clear access to carry building sections from the vehicle to your prepared base, with no height restrictions or tight, sharp corners to negotiate.

Our installers cannot lift sections over 4' in height or over buildings such as garages. If the only access is through the house, a straight run is required and many sections will not pass through doorways. Please advise us in advance if there are any difficulties regarding access.

Always make allowance for any roof overhang when buildings have to go into confined spaces.

All of our non-painted redwood and cedar buildings are treated with a good quality preservative on the inside, as well as the outside, prior to leaving the factory. We recommend that you preserve your building on an annual basis to maintain the appearance and lifespan of your building.

All redwood and cedar buildings have redwood roofs and floors. Cedar buildings have cedar windows, doors and external cladding only i.e. they have redwood framing, floors, roofs and verandahs.

Ironmongery is black as standard unless otherwise stated.

All roofs are protected with a layer of heavy duty polyester mineral felt unless otherwise stated, available in a choice of three colours.

All building dimensions shown in this brochure are approximate, based on floor sizes.

All timber used in the construction of our buildings originates from sustainable forests.

As it is our policy to continually improve products, methods and materials, we reserve the right to change specifications from time to time, we will not make any significant variations without your agreement.

Colours available:

The swatches above are for illustration purposes only as the printing process may not allow an accurate colour representation of paint or stain based finishes. We advise when selecting a final colour choice to request a painted timber sample prior to doing so.

Manufactured and installed by The Malvern Collection Limited. All prices include delivery (mainland England & Wales) and VAT.

As it is our policy to continually improve products, methods and materials, we reserve the right to change specifications from time to time. We will not make any significant variations without your agreement. Please note photos are for illustration purposes only and are not always standard specification. All building sizes are approximate and for guidelines only. All timber measurements, if stated, are finished sizes only i.e. after machining. Please note that finished sizes can vary by plus or minus 1mm.
